

CANNES, France, March 19, 2007—Red Herring has announced its official 100 European winners for the acclaimed Red Herring 100 Europe 2007 award. The winners will be celebrated at the Red Herring Venture Market Europe (VME) event in Cannes on March 25-27 at the Intercontinental Carlton.

The Red Herring editorial board has diligently surveyed the entrepreneurial scene throughout the EMEA region (Europe, Middle East and Africa), and selected 100 companies that are leading the next wave of innovation. The CEOs and founders of these companies will present their winning technologies to an audience of leading entrepreneurs, financiers and corporate strategists at VME 2007.

“This year’s impressive list of winners demonstrates Europe’s emergence as a major player in the global technology sector,” said Red Herring Editor-in-Chief, Joel Dreyfuss. “The exceptional accomplishments of European technology companies and entrepreneurs are a testament to the rapid advancements being made in the European innovation ecosystem.”

During VME, Red Herring’s CEO and Chairman, Alex Vieux, and a team of influential journalists will delve into the strategies and accomplishment of panelists, as well as the business models of the Red Herring 100. Programs focus on the specific challenges facing European firms and the best approaches for capitalizing on European innovation.

Venture Market Europe is an invitation-only event. C-level executives from top private firms and from large public multinationals attend to enhance their company’s industry presence, and investors come to secure their next deal and hear about the latest industry trends. Request your invitation at: <http://www.herringevents.com/vme07/register.html>
